

# Lab Report FP09: Neuromorphic computing

**Students:** Robin Dorstijn, Moritz Epping

**Tutor:** Jakob Kaiser

February 2021

# **1 Theoretical Foundations**

## **1.1 Investigating A Single Neuron**

## **1.2 Calibrating Neuron Parameters**

## **1.3 A Single Neuron with Synaptic Input**

## **1.4 Short Term Plasticity**

## **1.5 Feed-Forward Networks**

## **1.6 Recurrent Networks**

## **1.7 A Simple Computation - XOR**

# **2 Experimental Procedure**

## **2.1 Investigating A Single Neuron**

## **2.2 Calibrating Neuron Parameters**

## **2.3 A Single Neuron with Synaptic Input**

## **2.4 Short Term Plasticity**

## **2.5 Feed-Forward Networks**

## **2.6 Recurrent Networks**

## **2.7 A Simple Computation - XOR**

# **3 Experimental Procedure**

# **4 Results**

## **4.1 Investigating A Single Neuron**

## **4.2 Calibrating Neuron Parameters**

## **4.3 A Single Neuron with Synaptic Input**

## **4.4 Short Term Plasticity**

## **4.5 Feed-Forward Networks**

## **4.6 Recurrent Networks**

## **4.7 A Simple Computation - XOR**

# **5 Experimental Procedure**

# **6 Discussion**
